November 2023 / Vol 4

Career Development

Do you know your child's future plans? Ask them to share their individual plan of study (IPS) with you. IPS is done through the Xello program. You can take a look at classes they are interested in, career paths they are considering, and their post-secondary plans. This information may lead to some great conversations with you and your child.

Thankful November

Throughout the month of November, students and staff will have the opportunity to recognize others at Central who they are thankful for.

Before we leave for Thanksgiving break, every student and staff member will receive at least one handwritten thank you note from someone in the building.

Encourage your child to think about who has positively impacted them, both peers and adults, so they can write a note to let those around them know they are valued and appreciated. Gratitude has many positive benefits for both the recipient and the giver.

“There is nothing nicer than unexpected appreciation. If you're grateful, get a pen.” –
Helen Ellis

Grades & Attendance

We are now over halfway through first semester and some students may be starting to experience fatigue or burnout. When students have these feelings, attendance can become spotty which in turn influences grades. The more that grades fall the more overwhelming and harder the situation can become. Please support your child in finishing this first semester of high school strong. You can:

- Check Skyward grades together
- Email teachers with questions/concerns regarding specific classes
- Discuss attendance, academic struggles, and plans
- Reach out for help when needed
