Central's counseling theme for **April** includes:
Community Service & Hope

Our focus for April is **hope** and **community service**. How are these two things connected you may ask? Community service is more than giving back. It is an act of kindness that creates a ripple effect of hope that can improve the lives of others and your own. When we find ways to help each other, we create more hope in our community. Spring is a great time to get involved in the community. We will be sharing more about hope and ways to serve through our Google Classrooms throughout the month.
